

# **Multiple launch rocket systems “Polonez”/missile system “Polonez-M”**

## **Multiple launch rocket systems “Polonez”/missile system “Polonez-M”**

The “Polonez”/“Polonez-M” system includes a combat vehicle, a combat control vehicle, a transport-loading vehicle and missiles for various purposes in transport-launch containers.

The combat vehicle is a launcher for eight 301-mm A200 / A300 missiles on the MZKT 7930 chassis.

The equipment installed in the combat control vehicle provides communication with combat, transport-loading and command vehicles at a distance of up to 10 kilometers in motion and up to 30 kilometers in the parking lot. A combat crew of four can work continuously for up to 48 hours.

The warhead is detachable, the guidance system is combined – inertial with satellite correction (GPS). The circular probable deviation (CEP) of the warhead at the maximum range is from 30 to 50 m. A salvo of eight missiles at eight different targets can be fired in 50 seconds, the preparation time for a salvo is 8 minutes.

Name	«Polonez»	«Polonez-M»
Firing range, km: • maximum • minimal	• 200 • 50	• 290 • 120
Maximum number of targets hit by a salvo of one BM, pcs.	8	8
Location area for 8 different targets hit by one salvo, km	10x10	20x20
Number of launch containers, pcs.	8	8
Number of missiles in one ammunition load, pcs.	48 (in 12 KPK)	48 ( in 12 KPK)
Division composition, pcs. • BM • TZM • MBU	• 6 • 3 • 4	• 6 • 3 • 4

### [Combat vehicle \(BM\) «Polonez BM»/ «Polonez-M BM»](#)

Information about combat vehicle (BM) «Polonez BM»/ «Polonez-M BM» will be added soon.

## [Launching and transporting vehicle \(TZM\) «Polonez TZM»/«Polonez-M TZM»](#)

Information about launching and transporting vehicle (TZM) «Polonez TZM»/«Polonez-M TZM» will be added soon.

## [Controllable combat vehicle \(MBU\) «Polonez MBU»/«Polonez-M MBU»](#)

Information about controllable combat vehicle (MBU) «Polonez MBU»/ «Polonez-M MBU» will be added soon.

## [Launching container set \(KPK\)](#)

Information about launching container set (KPK) will be added soon.

## [Missiles](#)

Information about missiles will be added soon.
