Zero Injury Concept

On April 7, 2021, the management of the enterprise monitored compliance with labor protection legislation and the collective agreement.

Chief Technical Labor Inspector of the Regional Organization of Minsk and the Minsk Region of the Belarusian Trade Union of Industrial Workers "BELPROFMASH" Petr Fedorovich Samchuk, having studied the organizational and administrative documentation and local regulations containing labor protection requirements, having visited the Ground Control Station, noted the high level of labor protection at the enterprise.

More details about monitoring can be found [here](#).
